# USING SUPPORT AND RESISTANCE IN TRADING

---

*Support and resistance are key concepts that help traders understand, analyze and act on chart patterns in the financial markets.*

*Support describes a price level where a downtrend pauses due to demand for an asset increasing, while resistance refers to a level where an uptrend reverses as a sell-off happens.*

*Forex support and resistance allows FX traders and investors to better understand where to enter and exit trades, reduce their risk exposure and benefit from a favorable risk to reward ratio.*

# Company Mission

---

*Providing services focus on our clients' most critical issues and opportunities: strategy, marketing, organization, operations, technology, transformation, digital, advanced analytics, corporate finance, mergers & acquisitions and sustainability across all industries and geographies.*

# Company Goals

*Is to build trust in society and solve important problems. There is no more important or far reaching problem than climate change. We're focused on helping to solve one of the major issues reshaping the world; climate change and resource scarcity. As part of our sustainability efforts, we've set some clear targets to reduce our environmental impact.*
